Output:

```
Editor - C:\Users\GAMER_YT\Desktop\Assignment 2\main.py
temp.py main.py
1 from flask import Flask, render_template
2 app = Flask(__name__)
3
4
5
6 @app.route("/signin")
7 def sign_in():
8     return render_template("signin.html")
9
10
11 @app.route('/signup')
12 def sign_up():
13     return render_template("signup.html")
14
15
16 @app.route('/home')
17 def home():
18     return render_template("home.html")
19
20
21 @app.route('/about')
22 def about():
23     return render_template("about.html")
24
25
26 if __name__ == '__main__':
27     app.run(debug=True)
28
```

The private sector manufacturers of plasma-derived and recombinant analog therapies, collectively known as plasma protein therapies, and the collectors of source plasma used for fractionation. These therapies are used by millions of people worldwide to treat a of diseases and serious medical conditions. We need more donors to come forward to donate plasma which saves the life of many people.
